

EKB ECOLINE HYBRID AUTOMOTIVE

The Kabola EKB Series Ecoline are a range of fully automatic, soot free, oil-fired 8 or 13 kW heating systems. **EKB Ecoline system can be supplied as central heating as calorifier and as combi.** The highly efficient two stage blue flame technology ensures that there is no

soot emission, less fuel consumption and a lower power consumption. The EKB Series can be coupled to the central heating, hot air, floor heating and even an air conditioning system. It is a low maintenance system, thanks to its soot-free operation.

SPECIFICATIONS	EKB20 CH	EKB20 Boiler	EKB20 Combi	EKB40 CH	EKB40 Boiler	EKB40 Combi
Capacity (in kW)	8,5 / 12	8,5 / 12	8,5 / 12	11,5 / 16	11,5 / 16	11,5 / 16
Width installation size (mm)*	455	485	500	470	500	515
Depth installation size (mm)*	520	520	520	655	655	655

Earn back your investment in 3 years!

To create an optimal heating system with a matching central heating boiler, it's important to calculate the exact capacity.

This capacity is determined by the size of the rooms on board, the insulation values of the vehicle and the user's preferences. The region and season in which you travel with your vehicle are also crucial.
